Abstract

A gas bag module (10) comprises a gas generator (16) and a generator carrier (12), to which the gas generator (16) is fastened and via which the gas generator (16) can be fastened directly or indirectly to a vehicle steering wheel (100). The generator carrier (12) consists at least partially of a multiple-component plastic (30, 32). There is further proposed a vehicle steering wheel (100) including such gas bag module (10).
